they will achieve!"

## D.T PUPIL VOICE

### SPRING 2020

#### Reception

I liked it when we went into the wood and made leaf faces.

*Sophie*

I liked making puppets for role play. *Orla*

#### Year 1

Making a time machine was really fun. *Surreya*

I like D.T because it is fun. We have just finished using pasta and broccoli to make a pattern.

*Archie*

#### Year 2

I like how in D.T we don't have to put everything in our books. We can take pictures. I wish we could make more things out of clay.

*Mathilda*

It's great fun to make superheroes out of cardboard.

*George*

#### Year 6

I really enjoyed the craft side of making my own toy. *Georgia*

I like working with different materials, especially different fabrics. *Maisie*

#### Year 5

I like working in small groups so we can get ideas from one another. *Ethan*

D.T is really creative. I made a Borrowers hideout using things found around the house.

*Cody*

#### Year 4

I like designing our projects, especially the pillows. We should make more 3d models around the school. *Evie*

We have made Swedish meatballs this term. I think we should do more cooking. *Nicole*

#### Year 3

I prefer the design bit to the technology part as I'm good at making things. *Olivia*

We have D.T every other week now. The best bit is we can create all sorts of monsters out of lots of materials.

*Henry*
