

"If Children are happy,
they will achieve!"

SCIENCE PUPIL VOICE

AUTUMN 2021

Reception

"I love it when we get special time to find things out." *Nella*
"I'm really excited to learn about arctic animals and what they eat." *Teddy*

Year 1

"I love it science as you can do experiments with vinegar and water."

Freya

"We have been learning about animals and I've made a really good zoo."

Brooklyn

Year 2

"I liked finding things out. If things go wrong, you can just try to do it again."

George

"When I find some questions tricky, I'll put my hand up and Mrs Baker helps me."

Harry

Year 6

"We use the wedge to keep track of all the skills we are learning."
Frances

"I've loved comparing humans with fish and dissecting the heart. I love science." *Evie*

Year 5

"We're making things to help launch things, like catapults. Our end achievement is to make a balloon blaster."
Olivia S

"You get to do real life experiments and hopefully become a scientist when you're older." *Olivia F*

Year 4

"I love science. I can't wait until we get to dissect next year."
Alfie

"We looked at the guy who invented the light bulb in literacy and we draw graphs which is maths, but it was all science." *Isabelle*

Year 3

"I like science as it can also be design and technology and also a little bit of maths." *Jessica*

"We get to experiment and do lots of fun stuff. I got to pretend I was a fossil being buried."

Charlotte
